Statements of Witnesses - SECRET SERVICE AGENT GLEN A. BENNETT,
November 23, 1963, Vol. XVIII, P.760.

- This is a brief statement with one very important fact in it: He was examining the crowd when he heard a firecracker sound and looked toward the President. "At the moment I looked at the back of the President I heard another fire-cracker noise and saw the shot hit the President about four inches down from the right shoulder. A second shot followed immediately and hit the right rear high of the President's head."

In a side comment, having nothing to do with Bennett per se, so far none of these reports have referred to the incident in which a SecretService agent is alleged to have knocked an FBI agent out at the hospital. This apppared in the papers and apparently is true. It has to do with a bright, clean-looking young man dashing into the hospital and,before he had a chance to show his credentials, getting conked.
